Summary

Results-driven Information Technology undergraduate (Year 3, SLIIT) with hands-on experience delivering 4+ full-stack systems using MERN, Java, and PHP. Skilled in real-time systems, IoT integration, REST API design, and database engineering. Strong foundation in data structures, algorithms, operating systems, and computer networks. Seeking a software engineering internship to contribute to large-scale, high-impact products.

Education

Sri Lanka Institute of Information Technology (SLIIT) <i>BSc (Hons) in Information Technology</i>	Colombo, Sri Lanka <i>Nov 2023 – Nov 2027 (Expected)</i>
– Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Computer Networks, Operating Systems & System Administration, Software Engineering, Mobile Application Development, Probability & Statistics	
National Institute of Business Management (NIBM) <i>Certificate in Computer Science</i>	Sri Lanka <i>Mar 2023 – Jul 2023</i>
Aquinas College of Higher Studies <i>Diploma in English Language & Literature</i>	Sri Lanka <i>2020 – 2023</i>
Royal College Colombo 07 <i>G.C.E. Advanced Level – 3 A's (Commerce Stream)</i>	Colombo, Sri Lanka <i>2022</i>
President's College Kotte <i>G.C.E. Ordinary Level – 9 A's</i>	Sri Lanka <i>2019</i>

Technical Skills

Languages: Java, JavaScript (ES6+), C, C++, PHP, HTML5, CSS3, Bash (Shell Scripting)
Frameworks & Libraries: React.js, Node.js, Express.js, Bootstrap, Tailwind CSS, Material UI, Framer Motion
Databases: MySQL, MongoDB, Microsoft SQL Server
Mobile & IoT: Kotlin, Android Studio, ESP32, Neo-6M GPS
Systems & Infrastructure: Linux/Unix (file systems, process management, user administration), TCP/IP, OSI Model, DNS, DHCP, Virtualization basics
Developer Tools: Git, GitHub, Figma, Apache Tomcat, XAMPP, REST API, JWT Authentication, VS Code
Concepts: Full-Stack Development, OOP, System Design, Data Structures & Algorithms, SDLC, ITSM Fundamentals, Real-Time Systems, Agile/Scrum

Projects

SwiftRoute – Logistics & Delivery Management System | *React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS*

- Architected a production-grade full-stack MERN platform handling end-to-end logistics: shipment tracking, order processing, and multi-role user administration across admin, merchant, and driver portals.
- Engineered JWT-based role-based access control (RBAC) securing three distinct user roles with scoped permissions.
- Implemented an admin analytics dashboard, real-time shipment monitoring, and integrated payment processing pipeline.
- Designed a normalized MongoDB schema supporting high-volume concurrent operations across merchant, vehicle, and driver entities.

EcoTransit – Smart Public Transportation System | *React.js, Node.js, Express.js, MongoDB, ESP32, GPS*

- Built a full-stack IoT-integrated transportation platform bridging ESP32 microcontrollers and Neo-6M GPS hardware with a cloud-hosted MERN backend via REST APIs.
- Implemented a real-time live bus location dashboard, online seat reservation engine, and secure payment processing.
- Designed the hardware-to-cloud data pipeline, handling continuous sensor data ingestion, transformation, and frontend delivery with sub-second latency.

Acadamix – School Information Management System | *Java, MySQL, HTML, Bootstrap, Apache Tomcat*

- Developed a multi-module web system managing student and staff records, attendance tracking, and automated report generation for an institution-scale dataset.
- Streamlined administrative workflows, reducing manual data entry overhead through automated scheduling and record management.

Vehicle Rental System | *PHP, MySQL, HTML, CSS, JavaScript, Apache/XAMPP*

- Engineered a multi-branch vehicle reservation platform with inventory management, customer payment processing, and staff coordination modules.

Experience

Operational Assistant

Jun 2023 – Sep 2023

Startek (Multinational Operations Company)

Wattala, Sri Lanka

- Operated in a high-volume, fast-paced multinational environment, maintaining quality and composure under pressure.
- Collaborated cross-functionally to identify and resolve operational issues within tight SLA windows.
- Strengthened professional communication, escalation handling, and decision-making skills in a structured operations setting.

Achievements & Activities

Academic Excellence

2019

G.C.E. Ordinary Level – 9 A's

President's College Kotte

Academic Excellence

2022

G.C.E. Advanced Level – 3 A's, Commerce Stream

Royal College Colombo 07
